

PUTTA SHIVA

Civil Engineering Student

Phone: 6281728758 | Email: iamshiva7209@gmail.com | Hyderabad, Kukatpally

ABOUT ME

Motivated Civil Engineering student with strong practical exposure in building planning, interior design, and layout development using AutoCAD, STAAD Pro, and Coohom software. Possesses more than one year of continuous hands-on experience working under professional guidance in residential planning and visualization projects. Founder and Technical Head of CIVIHUB, a service-based startup focused on helping civil engineers access job opportunities and providing structured internships for engineering students. Highly interested in structural design, building planning, and innovative construction solutions with a commitment to continuous learning and professional development.

EDUCATION

- **Bachelor of Technology (Civil Engineering)** — Jawaharlal Nehru Technological University Hyderabad (JNTUH), Kukatpally (2023 – Present) | CGPA: 6.5
 - **Intermediate (Class XII)** — Sri Chaitanya Junior College | Percentage: 88%
 - **Secondary School (Class X)** — Aryabhata Group of Schools | CGPA: 10.0
-

WORK EXPERIENCE

Civil Design Trainee — Under Prof. Mr. Siva Konda Reddy (1+ Year, Ongoing)

- Prepared detailed residential building plans using AutoCAD software.
- Designed interior layouts and space planning models using Coohom software.
- Worked on exterior and interior planning for residential building projects.
- Assisted in layout creation based on functional requirements and space optimization.
- Developed visualization skills for building layouts and interior arrangements.
- Gained continuous exposure to real-world drafting standards and planning workflows.
- Improved accuracy in drawing preparation and layout detailing.

Founder & Technical Head — CIVIHUB Startup (Pre-seed Stage | Prototype Development)

- Founded CIVIHUB, a service-based startup focused on helping civil engineers find job opportunities.
- Designed internship programs specifically aimed at B.Tech students from the second year onward.
- Developing structured practical training modules covering planning, drafting, and execution skills.
- Leading technical planning and prototype development of the service model.
- Working on creating an ecosystem that connects students, professionals, and job opportunities.
- Managing technical workflow, planning strategies, and operational development.

PROJECT EXPERIENCE

- **Residential Building Planning Project** — Prepared multiple 2D building plans using AutoCAD including room layouts and functional planning.
 - **Interior Layout Design Project** — Developed interior space layouts using Coohom focusing on furniture arrangement and space optimization.
 - **Exterior Layout Planning** — Designed exterior structural layouts and visual planning models.
 - **Building Visualization Work** — Created realistic visual representations of residential interiors.
-

TECHNICAL SKILLS

- AutoCAD — Building Planning and Drafting
 - STAAD Pro — Basic Structural Analysis
 - Coohom — Interior Design and Visualization
 - Residential Building Planning
 - Interior and Exterior Layout Design
 - Drafting of Floor Plans
 - Layout Visualization
 - Basic Structural Understanding
-

ACHIEVEMENTS

- Secured 5th Place in National Level Bridge-It Contest conducted at Indian Institute of Technology Bombay (IITB).
 - Demonstrated strong structural design knowledge and teamwork ability in competitive conditions.
 - Participated in national-level technical competition involving bridge modeling and testing.
-

LANGUAGES KNOWN

- Telugu — Native
 - Hindi — Fluent
 - English — Professional Working Proficiency
-

PERSONAL STRENGTHS

- Leadership and Initiative
- Technical Learning Ability
- Problem Solving Skills
- Creative Design Thinking
- Time Management
- Adaptability
